

EXTERIOR/STRUCTURE/MATERIAL

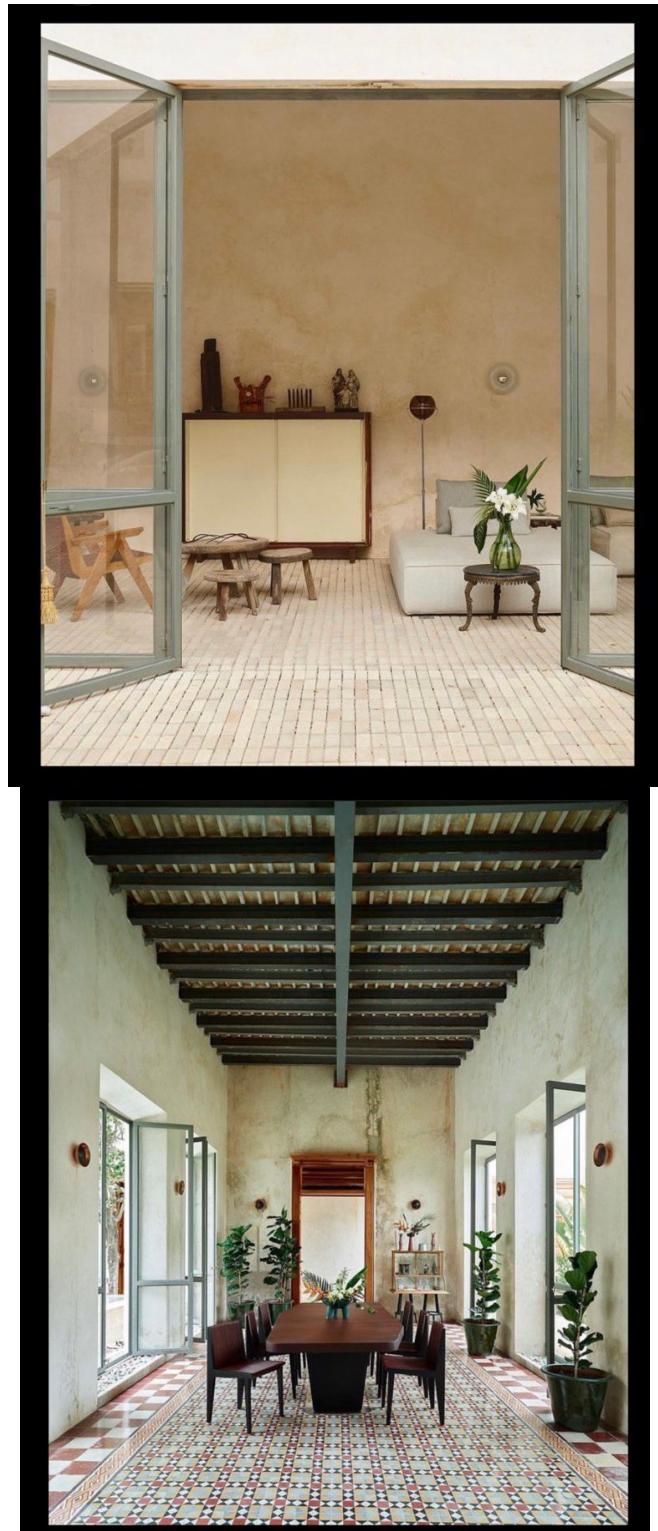

1&2: cement with wood accents via framing, trellis, etc
3: wraparound porch (house recessed from elements)

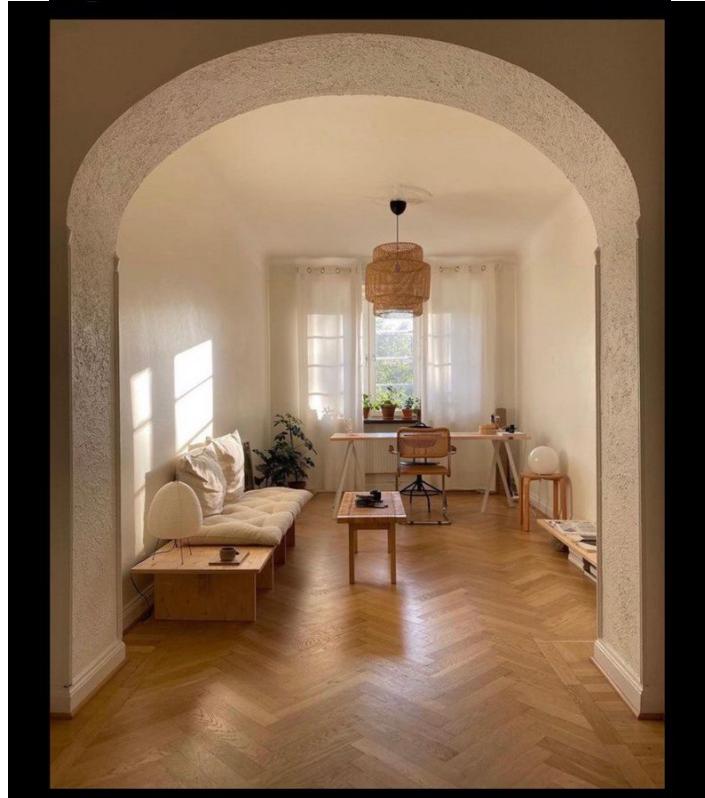

MISC NOTES:

- Light/neutral, not white
- Windows strategic to passive cooling / strong winds in rainy season

STYLE/ IMPRESSIONS/FEATURES

1&2: neutral exterior, colourful earth-tones interior, textured walls (limewash paint)

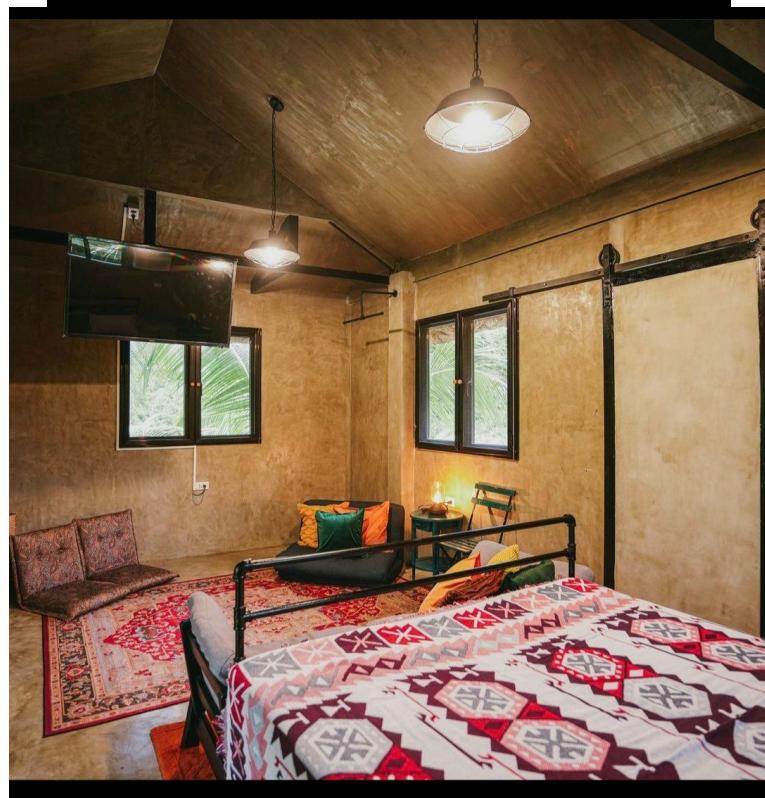

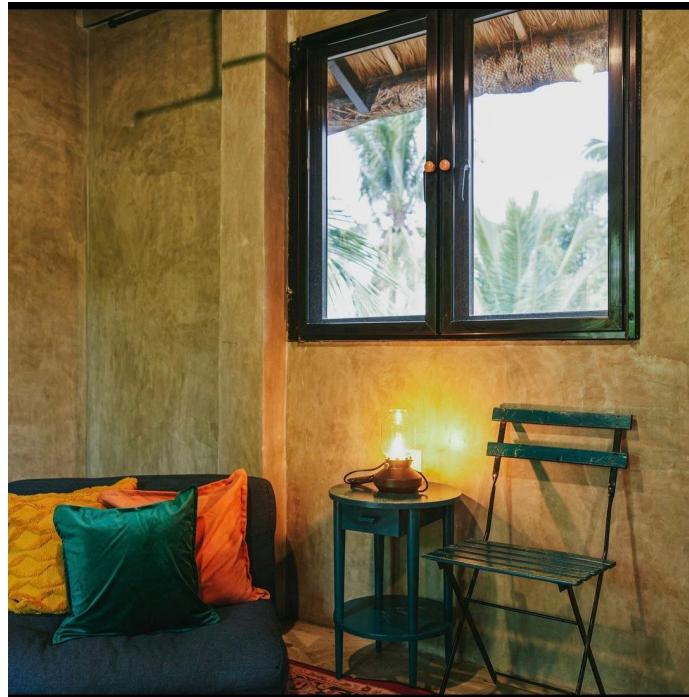

3: organic elements, round/arch shapes

4: arched ways, no white walls

5&6: wide and open living spaces, archways, wood beams, pops of colour

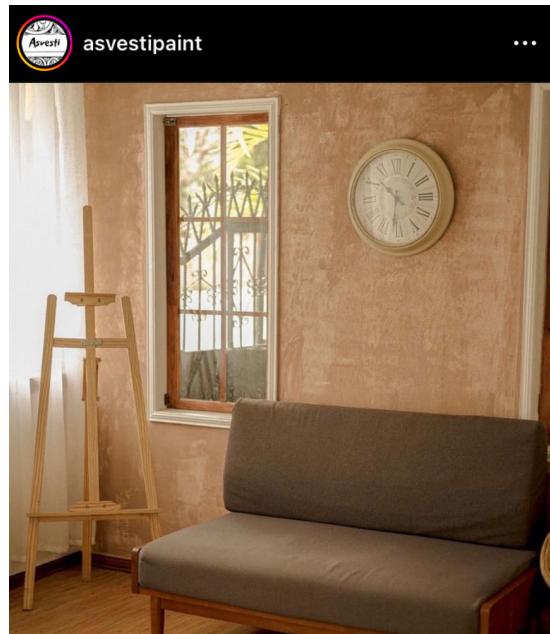

7-9: for bedrooms, cozy and natural

asvestipaint Perfectly dreamy, amazing detail for sure!

Limewash paint is a fantastic solution for when you want to use multiple paint shades on your walls.

Do bear in mind when creating designs like this that you need to let the individual colours dry first before layering with another colour.

NOTES:

- Would like to use limewash paint
- Textured effect and multiple colours (per room?)
 - Can also be as accent walls
